Objective

To obtain a challenging position in a reputable organization where I can utilize my technical skills in Java, JavaScript, SQL, and web technologies, enhance my knowledge through continuous learning, and contribute effectively to the growth and success of the organization.

Education

- **Baderia Global Institute of Engineering and Management** *Aug 2023 – Present*
  B.Tech in Artificial Intelligence Machine learning; CGPA: 8.08 Jabalpur, India

INTERSHIP

- **CodeAlpha** *May 2026 – Jun 2026*
  Java Programming Intern Remote
  - Developed using Java, applying OOPs concepts such as inheritance, polymorphism and encapsulation
  - Implemented using collections, file handling and exception handling
  - Tested and debugged programs, and managed code using Git and GitHub
- **VaultofCodes** *Jul 2026 - Aug 2026*
  Java Programming Intern Remote
  - Developed a full-stack Car Rental System using Java, Spring Boot, React.js, and MySQL
  - Implemented JWT-based authentication, customer registration, vehicle management, booking workflow, availability checking, and admin booking approval
  - Applied Hibernate and JPA,Spring Sequ and Git and GitHub for secure and maintainable application development

Projects

- **Shopping Cart** *2025 – Present*
  Tools: React, Material UI, CSS, HTML, JavaScript [GitHub]
  - Developed a responsive Shopping Cart interface using React and Material UI, enabling users to browse products, add/remove items, and view dynamic cart updates.
  - Utilized React state management and hooks to handle cart functionality, including item quantity updates and total price calculation in real time.
  - Applied component-based architecture to organize the frontend codebase for better scalability and maintainability.
- **Car Rental System** *2026*
  Tools: Java, Spring Boot, Spring Security, React.js, MySQL, Hibernate/JPA, REST APIs [GitHub]
  - Developed a full-stack Car Rental System using Java, Spring Boot, React.js, and MySQL with REST APIs for frontend-backend communication.
  - Implemented JWT authentication and role-based access control for Admin and Customer users using Spring Security.
  - Developed vehicle management and booking workflows including car variants, availability, booking requests, approval/rejection, and rental history.
  - Used Hibernate/JPA for database operations with input validation, exception handling, and secure user management.

Skills

- Programming Languages: Java,JavaScript, SQL
- Web Technologies: HTML, CSS, React.js, Spring Boot,Spring security,JDBC
- Database Systems: MySQL
- Other Tools & Technologies: VS Code, Git, GitHub, IntelliJ IDEA, Windows

Certifications

- **Java Spring Framework, Spring Boot, Spring AI - Gen AI**– Udemy (Instructors: Navin Reddy, Telusko) *Sep 2026*
- **Software Testing**– NPTEL, IIT Kharagpur (Swayam) *Feb-Mar 2026*
- **SQL (Basic)**– HackerRank *May 2026*

EXTRACURRICULAR

- Member of Art Painting Club–participated in college events, showcasing strong painting and sketching skills
